Dominion Mail Summary.

The Governor-General and family left Ottawa for Quebec on the 10th inst. It is understood that during the summer Lord Dufferin will spend some time in coasting along the shores of the Lower St. Lawrence and the Gulf in his yacht after which he will make a tour of the Maritime Provinces, including Prince Edward Island.

The remains of Sir George Cartier were landed at Quebec on the night of the 8th and ceremonies attendant thereon are described as the most solemn, imposing and touching ever witnessed in the country. At the church gate two women were knocked down and trampled, it is feared fatally, so great was the pressure of the human current. Another melancholy incident is related. The Hon. Dr. Robitaille had charge of the ceremonies, during which his father died and his mother was stricken with palsy. Owing to this sad event he was unable further to conduct the proceedings, and his place was taken by the Hon. Mr. Langevin. Such was Sir George's welcome back to Canada.

Mr. Wilmot had returned from the River Credit, where he had set out on their own ancount 10,000 young salmon. It is the intention of the Government to erect a fish-breeding institution at Gaspe, somewhat of the same kind as that which proved so very satisfactory at Newcastle.

The Metropolitan and Bishop of Montreal recommeuds that the 16th October next shall be held as a general day of thanksgiving thorough the country in the Anglican Church.

A Montreal paper states that a private telegram announces that Sir Hugh Allan has succeeded in "placing" the Canada Pacific Loan, and that he will leave on his return to Canada about the middle of June.

An Ottawa exchange says: Hon. John Carling, it is now authoritatively stated, is to be the next Lieut.-Governor of Ontario. The appointment will be eminently satisfactory to his friends.

A Grit paper says: There is said to be a plan brewing to have a full meeting of Parliament in August next.

Leading papers advocate the adoption of means for securing a correct report of the debates in Parliament in the form of the English Hansard. Towards the close of the session the subject was up and the Government promised to give it consideration during the recess.

An Ottawa exchange of the 10th inst. says: About twenty French Canadians left this city yesterday by the St. Lawrence & Ottawa for Manitoba, where they intend to take up land and settle. They were accompanied by the Rev. Father Lichot, who has succeeded in inducing them to emigrate to the Northwest.

San Domingo

A corresponden. of the 'Times' writes under date Puerto Plata, April 8th, with reference to the alleged forcible capture of some persons who had taken refuge in the British Consulate:—"Complete satisfaction has been given for the insult offered to the British flag in February last, when three political refugees were taken by force out of the English Vice-Consul's house. Her Majesty's ship Niobe, commander Sir Lambton Loraine, was sent here to settle the matter and demand satisfaction from the Dominican Government. When the Niobe arrived here Mr. Gonzales, the Governor, referred Captain Loraine to President Baez, at St. Domingo, saying that the matter had been taken out of his hands. The Niobe therefore proceeded to San Domingo city, when Mr. Baez refused to see the Captain Loraine on the plea of ill health. Captain Loraine was, however, received by, and had an interview with, the President's Ministers. As the interview with the Ministers produced no good results, Captain Loraine wrote a letter stating his demands, &c. To this he received an evasive reply; he therefore wrote a second letter repeating his demands, and stating that if they were not complied with, or he did not get a proper answer to his questions by 5 p.m., he should consider himself at liberty to take any further steps in the matter he might deem necessary. This brought the Dominican Government to its senses, and before the stipulated time an answer was received conceding all the demands made by Captain Loraine—viz., the restitution of the prisoners at Puerto Plata and the rehoisting of the Consular flag with a salute of 21 guns. The Niobe returned to Puerto Plata, and yesterday the prisoners were given up to her, and this morning at 8 o'clock, the Consular flag was rehoisted at the Vice-Consul's house by a Dominican official, in the presence of the captain, officers, and men of the Niobe, and a party of Dominican troops with their officers; the Governor, Mr. Gonzales, at the head of the Dominican troops, giving the order to hoist the flag, the fort at the same time firing a salute of 21 guns. The ceremony was very short Mr. Gonzales not appearing to like his position. All the other Vice-Consuls were present, and a large number of spectators. The result of this affair has given great satisfaction to all the foreigners here, aa they felt it was necessary to make the Dominican Government respect a custom which has been instituted in this revolutionary country for the good of all.

NOVELTIES.—Music or Maps published, Visiting Cards printed from plates, Books, Cheques, etc., numbered and perforated; also, Charts or Drawing Paper mounted on linen, and the most difficult forms of ruling and book-binding executed with neatness and dispatch. R. T. WILLIAMS, at Messrs. T. N. Hibben & Co.'s, Government street. ***

WE wonder what induces David Green the Clothier, of Government street, to advertiso, as everyone is aware that he keep the best fashionable made clothing store north of San Francisco. ***

A Reinforcement Demanded.

When the system begins to wilt under the effects of the first "heated term," it is obvious that it ought t be reinforced and sustained by wholesome stimulation. To resort to the adulterated liquors of commerce in such a crisis, as too many do, is the height of infatuated folly. All such fiery stimulants have a sting. After the first effect has passed away, that sting is felt. The reaction is terrible. The prostration of body and mind which ensues is more complete than before. But the operation of a medical tonic like Hostetter's Stomach Bitters, in which extracts of the rarest remedial herbs and roots are blended with the spirituous essence of rye, pure and undefiled, is very different. No unpleasant reaction follows its use. I is a permanent, a perpetual invigorant, and there is no phase of debility, indigestion, billiousness, nervousness or intermittent ever which it will not speedily cure.

A. GILMORE has just received a large assortment of Canadian and English Custom-made Clothing, which he will sell at Reduced Prices, therefore the public are invited to call and select for themselves and make their purchases before going elsewhere. ***

This meeting is the result of a challenge given to Mr Bunster by the Chief Commissioner of Lands and Works. The Electors of Victoria District are particularly invited to be present, as the Chief Commissioner intends to justify the present Ministry in the course they pursued last session in refusing to the Farmers a Modification of the Tariff and burdening the country with a Fourth Portfolio and a Sixth Minister.

Court of Assize.

[BEFORE MR. JUSTICE CREASE.]

MONDAY, June 23.

The Court met at 10 o'clock.

MURDER.

J. F. McGrath, indicted for murder, was arraigned and pleaded not guilty.

The Attorney-General appeared for the Crown, and Mr. Theo. Davie for the defence.

A jury, of which Mr. Alex. Wilson was elected Foreman, was empaneled.

The Attorney-General stated the case, from which it appeared that on a moonlight night, prisoner saw an Indian under a wharf at Alert Bay, and prisoner went down and attacked; him the Indian's wife ran away and did not see her husband again until she saw him in a bleeding state. Indian evidence was all the prosecution had, and, as we had painfully experienced in a recent case, it rarely stands the crucial test of a judicial examination.

Akehue, an Indian woman, testified that deceased was her husband. About four months ago, at a place called Ellis, Alert Bay, where McGrath lives, she and her husband went under a wharf; their canoe going adrift they picked up some wood to make a fire as the night was freezing cold. McGrath came out of the store and ran after her; she went into Coma's house; she did not know what took place, until she saw her husband brought to the house by two boys, covered with blood, his head all cut up. She kept her husband two days in the large house and then removed him to a small one where he died; her husband was in good health previous to this.

Cross-examined.—This occurred four months ago. Recollects giving her deposition before Capt. Spalding; she thought about a month ago; not a month and a half [Counsel read deposition in the Nanaimo Police Court] she did not say about four months ago in the Police Court; she dropped the piece of bark she had pulled up when she saw McGrath, [Counsel for defence proffered a diagram which His Honor objected to, not having been properly drawn out by a surveyor]; witness was not near the pile of bark; Comacowcoma was with her; does not know where her husband went after she ran away; she left her husband on the wharf not under it. Did not know whether her husband had bark in his hand or not, he had a walking stick, did not know about his running under the wharf; quite certain her husband ran on the wharf when McGrath ran after him. [Evidence before Mr. Spaulding.] Did not say that she saw running towards his house; and that her husband ran under the wharf; saw her husband cut all over; there was no medicine man in the camp; there were five people in the house where she lived; [here the Superintendent of Indian Affairs, who appeared in Court; was invited by His Honor to take a seat on the Bench] put the dying man out of the big house because a klootchman was sick in it; there is a tribe of Indians near Fort Rupert; this tribe did not eat dying Siwashes; saw an Indian of this tribe eat another; they won't eat the Indian if he dies where an Indian woman "mashes pilpil" because it is not good; this tribe always eats the slaves that they kill; do not kill cultus Siwashes to eat them: they make a little house for the Indian they want to eat; the Indians do this at "potlatch" time; they eat them; it was not "potlatch" time when her husband died; Santemas did come to see her tribe when her husband died; they came there to eat him; the man-of-war went there and prevented them eating; Santemas and her tribe eat men's flesh; Indians never let dying Indians remain in the big house; she remained with her husband all the time; her husband eat nothing from the time his head got cut.

By the foreman—Did not know how he was 8 days after he got his head cut.

By Counsal for defence—Did not hear her husband cry out when she ran; from where she ran to where she left her husband was some way off; did not put any water on his head on the sixth day; prisoner sent medicine and food to her husband, but he could not eat it; he took salmon.

By the Attorney General---The Mattisque eat slaves only. Her husband was not a slave. Her husband died in four days after he was brought into the house; could not explain why she said he had not eaten for six days and that he had died in four. There was a pile of bark close to the corner of McGrath's store, on the wharf piled up like cordwood very far from the sleeping house; the bark she picked up was close to the store; did not see the canoe that day; her husband went out first from the house.

By a juryman---Put the body in a box and buried it.

By Counsel for the Defence---Prisoner had lent no firewood to her husband; Indians put the boxes containing the dead up in the trees; when the body has been in the ground a long time it is taken out of the ground and eaten. Coma was sitting outside the door of his house when she ran into the house.

His Honor here remarked that as the present case would occupy the whole afternoon he should dismiss all the jurymen not engaged in the present case till Thursday next when the Court would reassemble. This was consequent on the illness of the witness in the poisoning case.

The Attorney-General suggested that the re-assembling of the Court should be advertised in the papers; but His Honor ruled otherwise.

The Court then adjourned for half-an-hour.

The Court resumed its sitting at 1½ o'clock p.m.

Coma, examined by the Attorney-General, stated that he saw the prisoner run after the last witness on the night of the 3d February last and that he followed the kloochman to witness' house and wanted to get in, but witness would not let him in because there was a sick man inside; deceased was underneath the wharf; McGrath saw him and prevented him getting up, then went down upon the beach and hit him with his fist and knocked him down; deceased then got up and picked up a stone and threw it at prisoner, who then took the walkingstick away from deceased and hit him over the head with it; witness told deceased to run away from the prisoner and he did so, but McGrath followed and knocked him down, then picked up a big stone and hit with it on the head; witness saw the blood gush out of deceased's head—at least, he thought he did; two Indians came along and told deceased to take hold of McGrath because they wanted to lick him; prisoner ran away and deceased, who was lying down, was picked up and taken home by the other two insensible; Witness did not go to see deceased but saw him buried four days afterwards.

Cross-examined by Mr. Davie—Remember giving evidence before Mr. Spalding six weeks ago to the effect that when prisoner was running after the klootchman, he (witness) could see deceased on the beach; it was very light; deceased's walking stick was a piece of board; he was too far off to see whether prisoner took any bark or not; McGrath struck first with his fist; he (deceased) took some small stones and threw them at prisoner; deceased let walking-stick drop in order to pick up the stones; he was sure McGrath picked it up; [Counsel quoted witness' statement at Nanaimo;] did say that McGrath took the stick from deceased; McGrath threw deceased down, who then picked up stones to throw at prisoner; one of the stones struck prisoner on the ear and made him very mad; witness was out of his house when he saw what happened; deceased asked prisoner to stop; prisoner struck him twice; [Counsel read from deposition;] he had not said then that he had told deceased to get up and go to his house; he did not say to Mr. Spalding that he heard deceased say he was too weak to get up and walk; Indian was buried before witness went away to Soowatti; he did see him once when he was buried; witness heard that McGrath was forced to give blankets to the Indians.

By the Court—Comacowcoma was witness' mother's brother; prisoner asked the kloochman who told her to take the bark? deceased said nothing when prisoner struck him; the stone was as big as his fist that struck deceased on the back of his head when he fell down; did not see any scuffle between deceased and prisoner; McGrath was drunk; witness was close to them; deceased was as far as this hall from prisoner; deceased asked the prisoner to stop as he was very near dead; deceased had been sick some time; do not know whether any portion of deceased was eaten or not before dying; saw nothing more than a swelling on the neck; McGrath took deceased by the hair of the head and gave a twist to the neck.

——— an Indian, sworn and examined by the Attorney General—Witness stated that his name was Dokatsk; knew McGrath and prisoner; witness was at Alert Bay; saw deceased four days after the scuffle, when he was dead; deceased was in good health before he was beaten.

Cross-examined by Mr. Davie — When McGrath saw deceased was dead he said he would pay for it in blankets.

In addressing the jury for the defence, Mr. Davie shewed that the prisoner, about the 5th of January, was awakened by the barking of dogs. He got up and saw a woman running away with bark. He then went out and saw Comacowcoma also with bark. The Indians had been in the habit of stealing from his pile of wood He struck deceased. It seems from the evidence that a great feast of human flesh was about to be given to the S——— tribe, and deceased was destined to supply flesh for this feast. He was taken out of the house where there was a sick woman, which in their opinion would contaminate the flesh. Deceased was therefore taken to another house. The evidence about the Priest's visit, the time of dying and burial are so conflicting that it fails entirely to support the prosecution. In any other place a coroner's inquest would be held, in the absence of which the law gives the prisoner the benefit of the doubt. [Here Mr. Davie quoted the law.] He therefore asked the jury to do justice to the prisoner, as the evidence of the Indians should never have been taken. The more feasible story is that the deceased had been doomed to be sacrificed for their feast.

Dr. Powell, Superintendent of Indian Affairs, sworn and examined by the counsel for defense---Stated that about four or five months ago prisoner came to me and told me about the death of this Indian and asked me to have steps taken to investigate the case, as it was reported that he (the prisoner) had caused his death; he (Superintendent of Indian Affairs) had told him that this was not within his power.

His Honor in charging the jury said that the prisoner stood charged with the murder of the Indian Comacowcoma. Prisoner by the gist of the evidence had proved the absence of malice aforethougt. The indictment could be altered to manslaughter, where mallce is still present, though not aforethought. If they believed that the evidence was either untrustworthy or going to prove that malice was not present then they would have to acquit the prisoner. Here His Honor reviewed the evidence at great length and concluded by leaving the case utterly in their hands,

Counsel for defense quoted the law to prove that the connection between the act alleged to have been committed by the prisoner and the death must be proved by the evidence of persons of professional experience. His Honor ruled that in this case the law could not apply.

At this point of proceedings Mr. Kay claimed the privilege at the hands of His Lordship which the law allowed him, as *amicus curiæ*, of setting the Court right on a point of law. His Lordship had defined the difference between murder and manslaughter to be malice in the one case aforethought, whereas, in the other, it was not aforethought although always present; whereas from the authorities we had on the table—Hale's, Clarke's and Roscoe's Criminal Practices—the difference was defined in manslaughter having "a total absence of malice." Whether this might affect this case or not it was not so clear; but it was necessary that the law should be rightly explained.

His Honor said that a mistake must have occurred in the reporter's notes, for he had not so defined the difference.

The Attorney-General said he had already properly defined the law.

The jury then retired and returned in three-quarters of an hour with the following

VERDICT:

Guilty of manslaughter, strongly recommended to mercy. At the same time, the jury regret that there are not greater facilities afforded to outlying settlers for the bringing of offenders to justice, which often leads men to take the law into their own hands.

Court then adjourned till noon to-day.

Police Court.

SERIOUS ACCIDENT AT THE NEW DOMINION BUILDINGS. — Yesterday morning, shortly after 7 o'clock, a very unfortunate accident occurred at the Dominion Government buildings now in course of construction on the lot adjoining the COLONIST BUILDING. Mr. George Goode, contractor for the brickwork, entered the safe for the purpose of removing the wood centre or form around which the safe was built and on which it rested. He ascended a ladder and was knocking away the props when the arch-way fell in with its own weight, covering Mr. Goode with bricks and injuring him in a serious manner. He was immediately dug out, and taken to the Angel Hotel, where Drs. Davie and Matthews attended him and ascertained that both bones of the left ankle are crushed, producing a comminuted fracture. He is also cut about the head, face and arms; but his physicians have full confidence in his ultimate recovery. The accident was caused by the recent rains wetting the mortar and thereby preventing the bricks from setting.

NOBLE UTTERANCE.—In a speech which he delivered over twenty years ago, Mr. Howe gave the following account of his origin and the national sentiments by which he was moved: "During the old times of persecution, four brothers bearing my name left the southern counties of England, and settled in four of the old New England States. Their descendants number thousands, and are scattered from Maine to California. My father was the only descendant of that stock, who, at the Revolution adhered to the side of England. His bones rest in the Halifax Churchyard. I am his only surviving son, and, whatever the future may have in store, I want, when I stand beside his grave, to feel that I have done my best to preserve the connection he valued, that the British flag may wave above the soil in which he sleeps."

RECIPROCAL POSTAL ARRANGEMENTS.—A Washington dispatch states that the Postmaster-General has signed additional articles for the present postal treaty with Canada, providing for the passage of postal cards between the United States and Dominion at prepaid rates of two cents in full to their destination to either country. Prepayment is effected by affixing to the card an ordinary one cent postage stamp. Correspondence has been in progress with Canadian authorities for some time on this subject and it is known these articles will be promptly signed on the part of the Canadian authorities and will go into effect July 12th.

MORE RELICS. — The sloop Duncan, Capt. Collins, came down yesterday from the N. W. Coast. Capt. Collins has shown us a cigarholder, a merschaum pipe and part of an account-book, which he bought from Indians who reside about 175 miles north of Cape Caution. The book was evidently used to keep accounts. The last entry is July, 1872. The names of R. Backus, Mary Sullivan, T. Bittencourt and others occur. Esmerelda Bay is often met with and there are frequent entries such as "5 fares at $2, $10; beds, eggs, beefsteaks, trunks," showing that the owner must have been steward of the lost G. S. Wright, or conductor on a railway train.

AT PORTLAND. — The steamer California, from Sitka, arrived at Portland on the 20th inst., and is advertised to sail for Victoria and Sitka to-day. A terrible gale was experienced off Vancouver Island, Capt. Hayes pronounces it the most severe blow he has yet experienced on the Northwest coast.

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Lecomte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s
Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s
Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one o the most recent scientific discoveries in therapeutics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconveniences of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hæmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s
***Matico* Injection and Capsules.**

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s
Pectoral Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.
GRIMAULT & Co.'s
Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s
Vermifuge Santonime Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s
Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

C. Francis Barnard, M. D.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.
